Subject: Agenda for Accord Communication Update 1/15

Hi everyone,

Tomorrow (1/15), we have some time on your calendars to discuss the Accord communication pieces. We would like to update you on the following topics:

- Senior Team update - We presented the communication materials to the Sr. Team on 1/14 and have some feedback to share with you.
- Substantiation file status - Check-in on whether substantiation deliverables are still coming in as expected. Confirm statements to the substantiated.

The meeting will be held **11 AM - 1 PM via videoconference in NY 100/4D & Richmond OC Executive Conf. Room.** I have also obtained the following dial-in number for folks participating from other locations.
Dial-in number: 877-287-0283

Participant code: 414095

Lunch will be served in NY.

Alisa, can you please forward this to A&P? Thanks.

Subject: Conf. call with Rick Solana & George Patskan today @3pm

Hi Tom,

As a follow-up with WSA after the Sr.Team meeting on Tuesday, I have scheduled a conference call with George Patskan & Rick Solana **today (1/9) at 3 - 4 pm.** This is to confirm biomarker data on Accord relating to the word "substantial".

We can just call from Tom G.'s office if that's OK. Thanks.
